

# Feather Flag/Banner Assembly Instructions

1. Bag with stand

2. Open the bag

3. Take out the poles

4. Connect the poles one by one

5. Feed the pole into the graphic

6. When the pole is fully inserted, it should look like this

7. Place the bungee cord through the flag hole at the bottom of the sleeve.

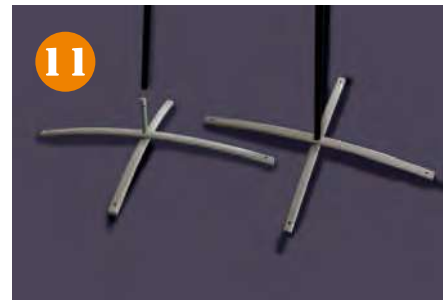

8. Fix the hook that is attached to the bungee cord to the fastener on the base of the flag pole.

9. It should look like this when done with the tension

10. Fix the foot for the outdoor flag. Ensure the Ground Stake is secured into the ground at least 12”.

11. Fix the foot for the indoor flag.

12. This is what the flags should look like when it is complete.

- **Want To Increase The Lifespan?** Be sure to bring the flag in each day, especially during inclement weather.
- **Using A Cross Base Stand?** Don't forget to put the included weight on the stand for stability.
- **Flag Spinning In The Wind?** Using the Bungee Cord to attach the flag to the base will keep the flag from spinning around.
